

FEATURES

- Heavy-duty 14 gauge steel heat exchanger with a durable ceramic fiber combustion chamber
- Easy access large diameter clean out ports in heat exchanger
- Foil-faced high density fiberglass insulation in cabinet reduces heat loss and sound
- Cabinet has pre-painted steel for maximum durability
- Internal filter included
- Direct drive models have slide-out blower design blower for easy cleaning and service
- 4-speed PSC direct drive blower assemblies are dynamically balanced with resilient motor mounts for smooth and quiet operation
- Belt drive models have permanently lubricated split phase blower motor, adjustable pulley and sheave
- High quality Beckett Flame Retention burner for efficient combustion
- High efficiency air flow system to provide consistent operation through all operating conditions
- Honeywell 7184B primary control with 15 second pre purge, interrupted ignition, limited reset, and LED diagnostics
- Solid state ignition with 20KV output voltage
- PSC burner motor with low amp draw and ball bearings for long life
- 40 VA transformer (Direct drive only)
- Transformer and cooling fan relay are factory wired for easy add-on cooling installation (Direct drive only)
- Limited life-time warranty on heat exchanger and five year limited warranty on all parts

¹See Table for Alternate Motors for Cooling Combinations

²12 Volt heating only. Additional transformer required for cooling applications.

NOTE: All models are rated at 140 psi pump pressure except the RLBF/R 57/72 which is rated at 100 psi.
